Department of Dravyaguna Vigyana

2nd Professional BAMS

VISION

To nurture competent Ayurvedic graduates with in-depth knowledge of Dravyaguna Vigyana, skilled in identification, rational use, and conservation of medicinal plants, integrating classical Ayurvedic wisdom with contemporary scientific understanding for holistic healthcare.

MISSION

1. To impart comprehensive theoretical and practical education in Dravyaguna as per NCISM syllabus.

2. To develop skills in authentic identification, classification, and therapeutic application of medicinal drugs.

3. To integrate classical Ayurvedic concepts with modern pharmacological knowledge.

4. To encourage student-centered learning, practical exposure, and research orientation.

5. To instill ethical values and conservation awareness related to medicinal plants.

AIMS

1. To build strong foundational knowledge of Dravya, Guna, Rasa, Virya, Vipaka, and Prabhava.

2. To enable students to identify and utilize medicinal plants prescribed in the NCISM curriculum.

3. To prepare students for clinical application of drugs in later professional years.

4. To promote rational, safe, and evidence-based use of Ayurvedic medicines.

OBJECTIVES
Knowledge Objectives
Students will be able to:
1. Explain basic principles and concepts of Dravyaguna Vigyana.

2. Describe classification of drugs according to classical texts and modern taxonomy.

3. Understand pharmacodynamic and therapeutic actions of medicinal plants.

4. Correlate Ayurvedic drug properties with modern scientific concepts.

Skill Objectives
Students will be able to:
1. Identify raw drugs and medicinal plants correctly.

2. Prepare herbarium sheets and crude drug samples.

3. Demonstrate proper selection of drugs based on disease and doshic involvement.

4. Apply Dravyaguna knowledge in simple clinical and preventive contexts.

Attitude Objectives

Students will:

1. Develop respect for Ayurvedic classics and traditional knowledge.

2. Practice ethical drug usage and sustainability principles.

3. Cultivate interest in research and medicinal plant conservation.

COURSE OUTCOMES

At the end of 2nd Year BAMS – Dravyaguna, students will be able to:

1. Demonstrate clear understanding of fundamental principles of Dravyaguna Vigyana.

2. Accurately identify and classify medicinal plants and crude drugs.

3. Select appropriate Ayurvedic drugs based on Dosha, Rogavastha, and Prayojana.

4. Apply knowledge of Dravyaguna in clinical decision-making in subsequent years.

5. Exhibit awareness of drug safety, quality control, and conservation.

6. Integrate classical drug knowledge with modern scientific insights.
