4.3.2: Library Resources: Textbooks, Reference Volumes, Journals, Rare Books, Manuscripts and Other Knowledge Resources

Spoorthi Ayurveda Medical College & Dr. S. V. Savadi Ayurveda Hospital, Gangavathi – 583227, Karnataka, functioning under Atreya Ayurveda Pratisthana®, has a well-established, adequately equipped and systematically maintained Central Library to support academic excellence, competency-based medical education, scientific research and continuous professional development. The library provides comprehensive learning resources for undergraduate students, teaching faculty, researchers and healthcare professionals.

1. Textbooks and Reference Volumes

The institutional library has an extensive collection of **8,000 textbooks and 168 reference volumes**, covering various disciplines of Ayurveda, modern medical sciences, clinical subjects, basic sciences and allied healthcare fields.

The collection includes learning resources related to Samhita Siddhanta, Sanskrit, Rachana Sharira, Kriya Sharira, Dravyaguna Vigyana, Rasashastra and Bhaishajya Kalpana, Roga Nidana, Swasthavritta, Agada Tantra, Kayachikitsa, Panchakarma, Shalya Tantra, Shalakya Tantra, Prasuti Tantra and Kaumarabhritya.

These resources support classroom teaching, practical training, clinical learning, assignments, examinations and research-oriented academic activities.

2. Journals and Scientific Publications

The institution has **36 journals** to support scientific learning, academic research and evidence-based Ayurvedic medical practice.

The journal collection facilitates access to scholarly publications, scientific articles, clinical studies, research findings and developments in Ayurveda and allied medical sciences.

Faculty members and students are encouraged to utilise journals for literature reviews, seminar presentations, research projects, clinical discussions and academic publications.

3. Rare Books and Classical Ayurvedic Literature

The library gives importance to preserving and promoting traditional Ayurvedic knowledge through classical texts and authoritative literature.

Important Ayurvedic treatises such as Charaka Samhita, Sushruta Samhita, Ashtanga Hridaya, Ashtanga Sangraha and other traditional Ayurvedic works form an essential part of discipline-specific learning.

These classical resources strengthen students' understanding of Ayurvedic principles, traditional diagnostic methods, therapeutic practices and the historical foundations of Indian medical sciences.

4. Manuscripts and Digitised Traditional Knowledge Resources

The institution recognises the importance of ancient manuscripts and digitised traditional literature in preserving India's rich medical heritage.

Traditional knowledge resources and classical Ayurvedic literature are valuable for understanding historical medical practices, Sanskrit terminology, traditional formulations and the evolution of Ayurvedic healthcare.

The library encourages the academic use of available traditional literature and supports the progressive development of digital knowledge resources for teaching and research.

5. Discipline-Specific Learning Resources in Ancient Indian Languages

The library provides learning resources related to Sanskrit and classical Ayurvedic literature, enabling students to study fundamental Ayurvedic concepts through traditional Indian knowledge systems.

Such resources support the interpretation of Sanskrit terminology, classical references, Ayurvedic philosophical concepts and traditional therapeutic principles.

6. Library Automation and Enrichment

The Central Library is supported by an **Integrated Library Management System (ILMS)** for systematic cataloguing, classification, circulation, accession management and maintenance of library records.

The institution continuously strives to enrich its collection through textbooks, reference materials, journals, research publications and specialised academic resources.

Conclusion

The Central Library, with **8,000 textbooks, 168 reference volumes and 36 journals**, provides a strong academic foundation for quality Ayurvedic education, research, clinical learning and preservation of traditional Indian medical knowledge.

The institution remains committed to strengthening its library resources and promoting an effective, research-oriented learning environment.
